**Description:**

Me and my sisters are from Ukraine. We fled to Japan to be safe & secure with very few items on our luggage & some money thinking we could go back to Ukraine soon, we are able to rent apartment in Japan to be our temporary home but our resources will be depleted soon since its been months since the war began. We hope to get some help in Shelter platform when the time comes that we can no longer support ourselves.

# IPFS Retrieval

The screenshot displays the Shelter application interface. On the left is a dark sidebar with a user profile for Katarina Rosotova, including a status of 'Registered', a reputation of 32, and navigation links for 'Give Help Section', 'Need Help Section', and 'Crypto Ukraine'. The main area features a top bar with 'Active Help' and 'Past Help' tabs. Below this, three help request cards are shown: 'Online Consultation For Mental Health' by the Mental Health Association - Asia, 'Happy Kids Donations' by the Shelter Relief Team, and 'Kiev Food Drive - Day 1' by the STAR Labs Student Council. Each card includes an image, title, description, organizer name, and a 'Take' button.

# Future Development using Web3.Storage & IPNS

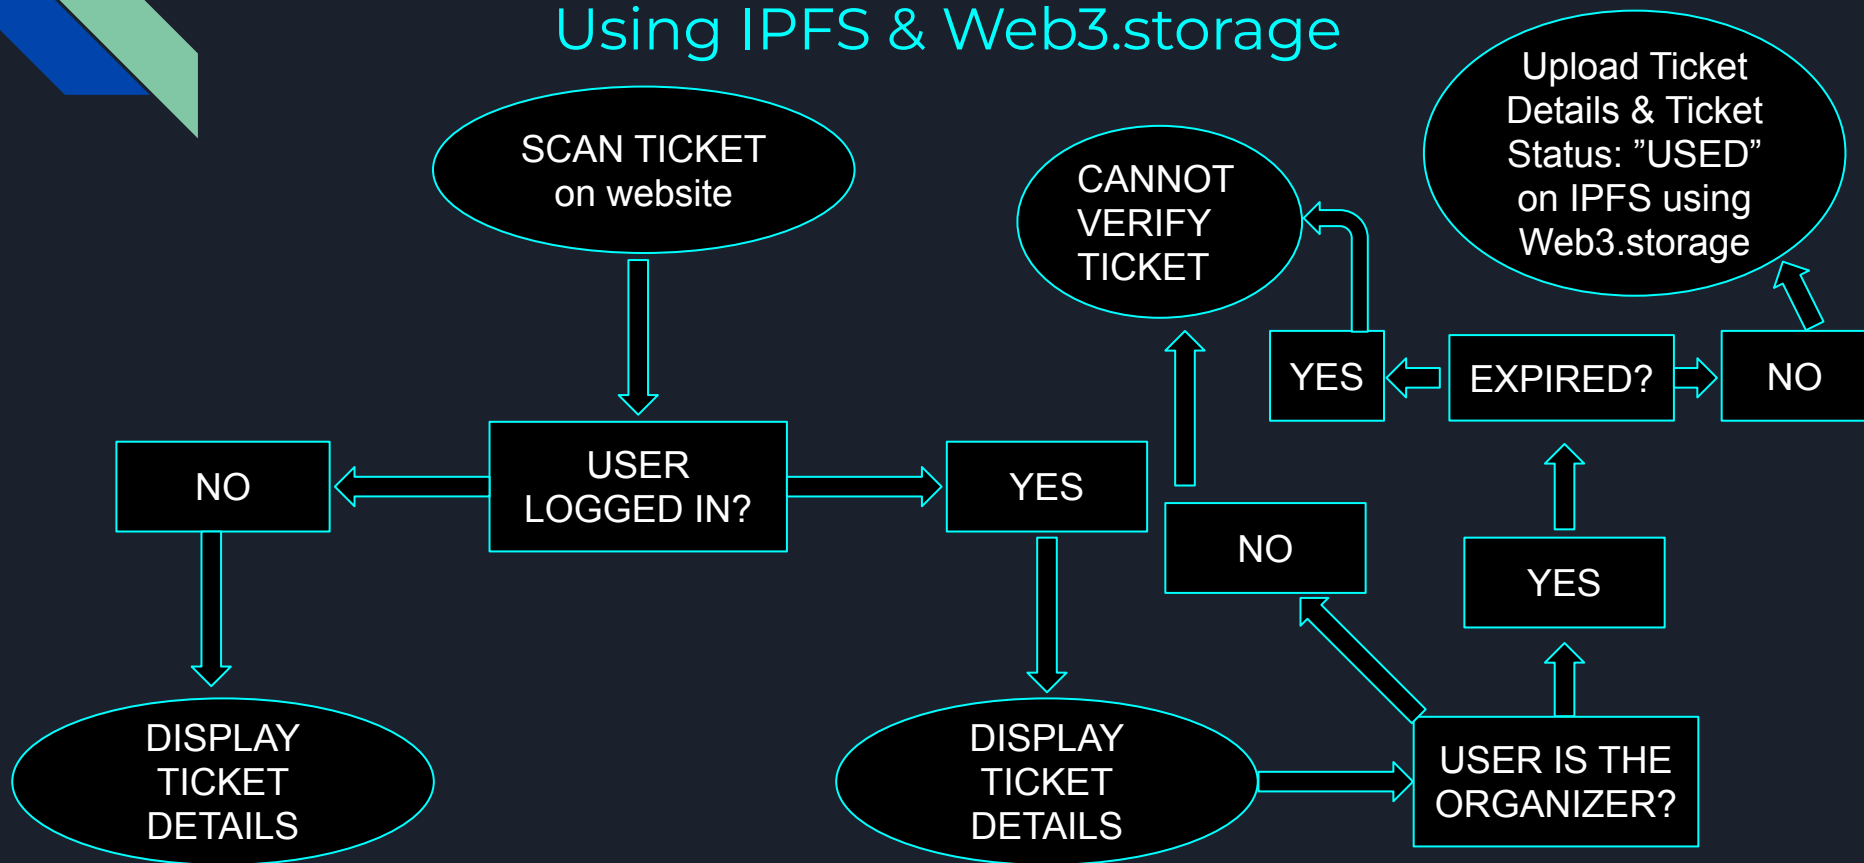

## Web3.Storage for Ticket Verification

Ticket Verification or Ticket Claiming for Organizers will use web3.storage for seamless updating and IPFS retrieval of ticket status.

## IPNS for Comment Section

Every Post or Event page in Shelter will have a comment section using an IPNS (Inter Planetary Name System) for an easily updatable distributed commenting.

# Ticket Verification Process for Organizers Using IPFS & Web3.storage

# Manual Verification VS Automatic Verification

- Manual Verification could be chosen by the organizer if the organizer wants to verify tickets one by one. The organizer must sign a key-pair to update one ticket after each scan.
- Automatic Verification could be chosen by the organizer if the organizer wants to sign a key pair just once & automatically updates the ticket after each scan till the session ends.

Done, your data has been uploaded to IPFS!

We will notify you as soon as the transaction has been confirmed.
